

StudES

Effective teaching for student engagement & success
in digital learning environment

StudES Teacher Training Programme:

starting points and visions

Co-funded by the
Erasmus+ Programme
of the European Union

I02 core goal:

to design the advanced teaching competencies development programme, StudES Teacher Training Programme:

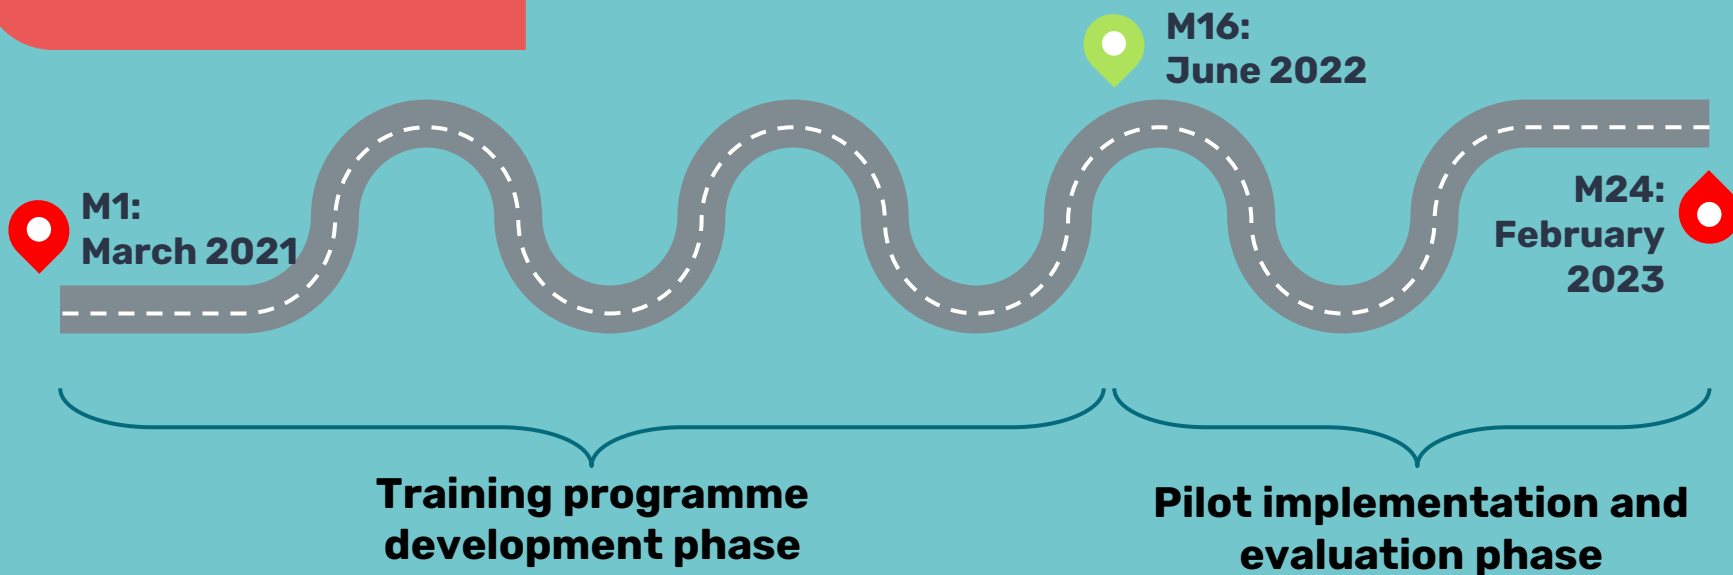

“Advanced teaching for students’ engagement, wellbeing and success in a digital learning environment: *Mind the gap!*”

StudES I02 goal

Timeframe for the I02

Some
starting
points

What do we have as starting points?

Employed adults

From different countries

Various scientific fields and approaches to teaching

Who is our target group?

Synchronous mode was dominant;
Low diversity of methods...

Poor interaction and student engagement

What do we know about them?

Most of the teachers did not have prior experience in online teaching

Teachers and students are not fully satisfied with the quality of ERT

Digi Comp Edu:
Teacher pedagogical competencies

International frameworks

Our vision

Minding the gap!

ERT

What many teachers
consider online
teaching/learning to be...

What online
teaching/learning
really is and
what are its full
potentials

1. Teachers will be able to understand and evaluate the potentials and limitations of teaching/learning in an online environment.

2. Teachers will be competent to plan, create, and implement a course in an online environment.

3. Teachers will be able to plan online teaching/learning and assessment activities aimed to foster students' engagement, wellbeing, and success in online learning, in accordance with students' needs and available resources.

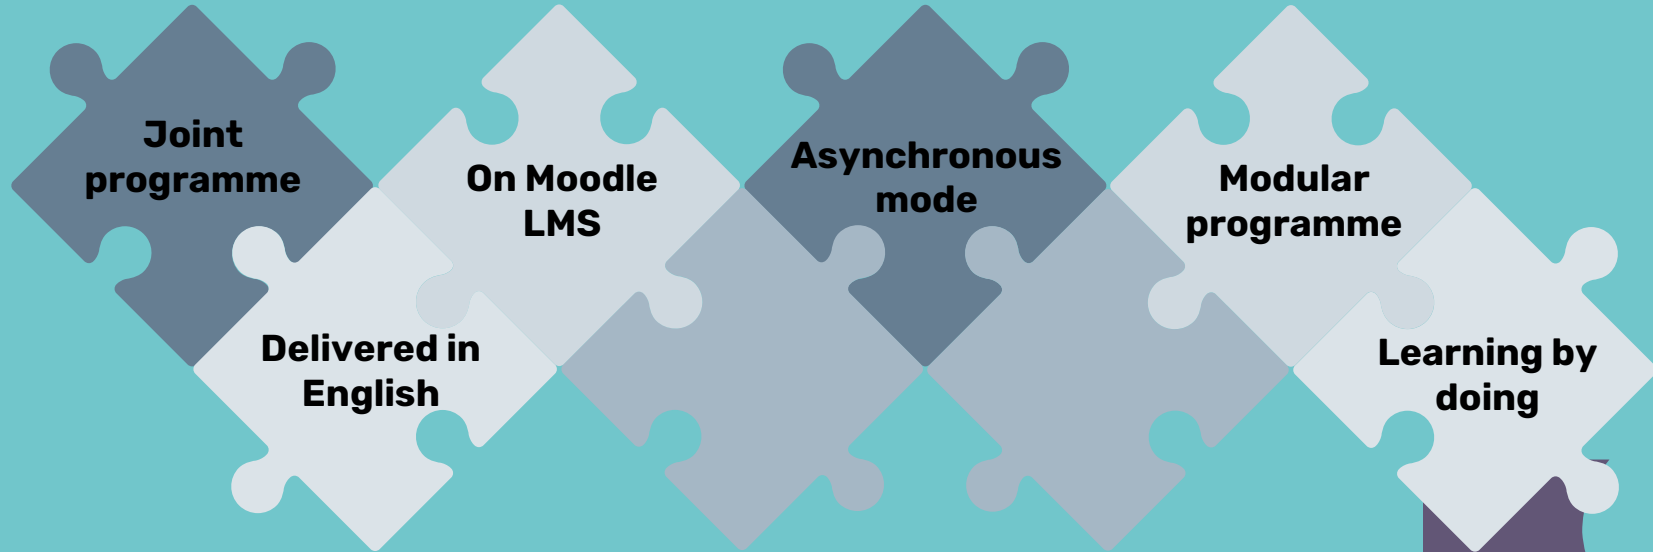

Possible outcomes of the programme

-
-
-
-
-
-

4. Teachers will be competent to create and modify different types of learning resources and materials.

5. Teachers will expand their repertoire of online teaching/learning tools and platforms.

Programme core characteristics

Possible Training Programme modules

Module 1:

Introduction to teaching and learning in an online context

Module 2:

Planning and creating an online course

Module 3:

Designing learning activities and educational resources for the digital learning environment

Module 4:

Designing evaluation and assessment activities in a digital learning environment

Pilot implementation

Expected in 2022

Pilot group of ~30 university
teachers from all three partner
institutions

Thank you for your attention!

Any questions and/or
suggestions?
